YOUNG AMERICA. A GENTS wanted in every county in this and adjoining States to sell the above new and improved CORN AND COB MILL. To all such, a rare chance to

make money will be offered. Exclusive State and County privileges will be disposed of on unusually far terms, by FARMERS AND STOCK RAISERS,

I offer you a Corn and Cob Mill unsurpassed in the Union, and which cannot be superceded by past or future inventions. It is the very Mill which every Farmer and Stock Kaiser should have; it will crash from 8 to 10 busheis Corn and Cob per hour, with one horse; is easily fitted up and managed; weighs 340 lbs., and as all contact of the grinding surfaces is prevented, will last any farmer an ordinary lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill. Who is it that wants A MILL ON TRIAL

for one month, and if it den't give complete satisfaction, to return it? If there be any man thus disposed, let him now spenk. Satisfaction is warranted in every case, or the money will be refunded. This Cruster can be attached to horse, water or steam power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other Crushers now in the south require too much power, or will seen wear out. According to THE LAWS OF NATURE

a Corn and Cob Mill which admits of a lateral or wabbling motion, will, necessarily, soon wear out; all other Crushers are amenable to this grand objection, and the Proprietors dare not dispote it. In the construction of "Young Agentee," I have gained power, and I dely contradiction; I have lessened friction, and I challenge one word to the contradiction. ry; I have prevented a wabbling lateral motion, and all are compelled to acknowledge it; therefore, I assert that it is far superior to any other Mill. EXCELSIOR CORN AND COB MILL.

SOMETHING ENTIRELY NEW. Patented by Charles Leavitt, February 27th, 1855. Patented by Charles Leavitt, February 27th, 1855.

THE above cut represents a recent and valuable improvement by Charles Leavitt, in PORTABLE GRAIN MILLS, adapted to crushing Corn and Cobingether for stock, and granding Meal for family use. Mr. Leavitt being the original inventor of this kind of a machine, and from long experience with cast iron corn-crushers, finding that all of them were liable to objections, the most formidable of which was their want of durability or liability soon to wear out, he ugain went to work with the view of removing the objectionable features. In February, 1855, he succeeded in obtaining letters patent for the "Excelsior Corn and Cob Mill," and now has the satisfaction of being able to present the above Mill to the farmers of of being able to present the above Mill to the farmers of the United States, standing as it does at the head of the list of Corn-Crushers, combining the good qualities of all, exempt from the defects of any, and possessing many new, valuable, and distinguishing features, of which all others are destitate. we have remarked that the great and heretofore insur-

We have remarked that the great and heretofore insurmountable objection, urgod with so much force against castiron mills, was their palpable deficiency in durability. To remove this objection was a desidenatum long sought for, and which has been at length allained in the "Excelsior Mill" only; the grinding surface of which consists in moveable rings, made in hard and superior metal, and which, when worn out can be replated in five minutes by new rings, at a cost of \$3, which makes the mill as good as new, there being no other part liable to wear out. Two setts of grinding rings accompany each mill, making it equal to two mills. This peculiarly, passessed by no other mill, should not be overlooked by parchasers, as it insures durability, a consideration of all others the most important.

important.

Another interesting feature in this mill, and one which we think will secure for it a just consideration of merit, is in its being provided with a meal conduct it, by means of which the meal is discharged into a half bushel, instead of being scattered around the mill, as is ordinarily the

This mill having been fairly tested with other mills at the late Fair of the Maryland Agricultural Society, at the Ohio Suste Fair, and elsewhere, at all of which it established its superiority, we do not hesitate emphatically to pro-nounce it pre-eminently superior to any and all other corn crushers of the day, independent of its moveable grinding rings, which feature of itself makes the distinction be-tween the "Excelsior" and all other corn crushers so broad as to render a comparison superfloors; and, as an evidence of our sincerity, we hereby announce that we will give a silver cup to any Corn Crusher that can be produced, of the same size and same length of lever, that will grind thus and faster than the Excelsior, at some time and place

to be agreed upon.

Capacity of granding corn and cobs with two horses from 15 to 20, and with one horse, from 5 to 10 bushels per

Cost of Running the Excelsior Mill for Ten-

1 ears, Compared with that of other Mills in use at this time. It has been proven by experience, and contrary to general expectation, that cast iron Mills for grinding Corn, etc., to do the work properly, will not last more than two years. In view of this fact, the inventor of the Excelsion Mills has labored to produce a machine that will be more economical, and at the same time more effectual. The following estimate will show the cost of grinding with each of the Mills now in use for ten years:

Cost of Excelsior Mill, \$50, including an extra set of Grinding Plates, which makes it good for four years. Cost of repairs for six years, \$9, making for ten years, \$99.

Cost of common Mills, without any extras, says \$14.—Cost of running the same for ten years, supposing that the Mill will last as long as the Excelsior Mill without repairs, say to be renewed every two years, which in this case must be done at the expense of a new machine each time, \$175, making for the ten years a cost of \$220. This same rate will apply to any and all of the Mills now in use which come in competition with the Excelsior Mill.

Farmers and others in want of mills for grinding Corn and Cob, etc., will see by the above estimate that the Ex-It has been proven by experience and contrary

and Cob, etc., will see by the above estimate that the Ex-celsior Mill can be used for the purpose required at less than one-third the expense of any other Mill now in use, This Mill may be put up in a few minutes by any ordi-nary farm hand, printed directions for which accompany

each Mitl. The undersigned having purchased the right to the above Mill in Middle Tennessee, take pleasure in introduc-ing it to the public, believing it to be all that is claimed for it, and well worthy the attention of every Farmer,

Patent Straw Cutter.

The multiplicity of Straw Cutters already before the public, a large proportion of which having failed successfully to stand the test of thorough trial, and having fallen far short of the representations of the venders, as well as the expectations of the purchasers, a general district has been created in the public mind for all machines of this description. Hence it becomes a consideration of the utmost importance before the general introduction of a machine, cone-rung which there is so much doubt, and connected with which there have been so many failures, that it should first have been subjected to the most thorough and critical test, and its claim to merit clearly established beyond a doubt. This machine has now been in existence upwards of twelve months, during which time it has been submitted to the severest tests, and has undergone modifications and alterations, with a view of bringing it as near perfection as possible. It is now complete, and presented to the public in the full confidence that it will meet the wants of the farmling community, and sustain the high reputation it has already obtained, and the opinions formed of it by all who have used it.

We claim for it—

For the Complete Cure of Coughs, Colds, Influenza, Asthma. Bronchitis, Spitting of Blood and all other Lung Complaints tending to Consumption.

This preparation is getting into use all over our country. The numerous letters we receive from our various agents, informing us of cures effected in their immediate neighborhoods, warrant us in saying it is one of the best, it not the very best Cough Medicine now before the public.—It almost invariably relieves and not unfrequently cures the very worst cases. When all other Cough preparations have failed, this has relieved the patient, as Bruggists, dealers in Medicines, and Physicians can testify. Ass the Agent in your nearest town, what hus been his experience of the effects of this medicine. If he has been selling it for any length of time he will tell you it is the best medicine extant. Below we give a few extracts from letters we have received lately regarding the virtues of the medicine.

Dr. S. S. Oslin, of Knoxville, Ga., says.—I have been using your Liverwort and Tar very extensively in my practice for three years pass, and, it is with plensure 1 state my belief in its superiority over all other articles with which I am acquainted, for which it is tecommended.

Messrs. Fitzgeraid & Brenners, writing from Waynesville, N. C., says:—The Liverwort and Tar is becoming daily more popular in this country, and we think justly so. All who have tried it speak in commendable terms of it, and say it is very beneficial in alier lating the complaints for which it is recommended.

Our Agent in Pickens District, S. C., Mr. S. R. McFall, assures us that he uses it with great benefit in his own family and recommends it to his neighbors." He gives an instance

Our Agent in Pickens District, S. C., Mr. S. R. McFall, assures us that he uses itwith great benefit in his own family and recommends it to his neighbors." He gives an instance of a negro woman in his vicinity, who had been suffering with disease of the Lungs for years, attended with sever cough, who was relieved by the Livarwort and Tar.

Such are the good reports we hear of this Medicine from all parts of the South. For a report of the surprising cures it has performed in the Western and Northern and Eastern States, we would invite the suffering patient to read the pamphlet which accompanies each bottle. AYER'S PILLS.

known of any Medicine. Invalids, read and judge for yourselves.

ULES HAUEL, Esq., the well known perfemer of Chesnut

JULES HAUEL, Esq., the well known perfemer of Chesnut Street, Philadelphia, whose choice products are found at almost every toilet, says:

"I am happy to say of your Carmanne Pills, that I have found them a better family medicine for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them, and coincide with me in believing that they possess extraordinary virtues for driving out disease and curing the sick. They are not only effectual, but safe and pleasant to be taken,—qualities which must make them valued by the public, when they are known."

The venerable Chancelier WARDLAW, writes from Baltimore, 15th April, 1854:

Dr. J. C. Avra.—Sir: I have taken your Pills with great benefit, for the listlessness, langer, less of appetite, and billious headache, which has of late years overtaken me in the spring. A few does of your Pills cared me. I have used your Cherry Pectoral many years in my family for coughs and colds with unfailing success. You make medicines which cure, and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN P. BEAITY, Esq., Secretary of the Pennsylvania Railroad Office,

Philadelphia, December 13, 1813.

Siz: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very materia benefit from the use of both your Pertoral and Cathartie Pills. 1

of your medicines, having derived very materia benefit from the use of both your Pectoral and Cathartic Pills. 1

Sir: a take pleasure in adding my testimony to the efficacy of your medicines, having derived very maserin benefit from the use of both your Pectoral and Cathartic Pills. I am naver without them in my family, nor shall ever consent to be, while my means will procure them.

The widely renowned S. S. Sfevens, M. D., of Wentworth, New Hampshire, writes:

"Having used your Caymartic Pills in my practice, I certify from experience, that they are an invaluable perganive. In cases of disordered functions of the liver, caussing headachs, indigestion, costiveness, and the great variety of diseases that follow, they are a surar remedy than any other. In all cases where a pargative remedy is required, I confidently recommend these Pills to the public, as superior to any other I have ever found. They are sure in their operation, and perfectly safe, qualities which make them an invaluable article for public use I have for many years known your Cherry Fectoral as the best cough medicine in the world, and these Pills are in no wise inferior to that admirable proparation for the treatment of diseases."

Dr. J. C. Ayra — Dear Sir: I have been afflicted from my birth with scrothula in its worst form, and now, after twenty years' trial, and an unfold amount of suffering, have been completely cured in a rew weeks by your Pills. With what feelings of rejoicing I write, can only be imagined when you realize what I have suffered, and how long.

Never, until now, have I been free from the loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unemdurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me partiy bald all my days; sometimes it came out in my face, and kept it for months a raw sore.

"About nine weeks ago I commenced taking your lainartic Pilis, and now am entirely free from the complaint. My over sire well, and my skin is fair, and my skin is fair, and my shar has commenced a healthy growth; all of which makes me feel already a new per

Overseer of the Portsmouth Manufacturing Co."
Capt. JOEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:

"Your Pills have cared me from a bilious attack which arose from derangement of the Liver, which had become very serious. I find falled of any relief by my physician, and from overy remedy I chald try, but a few doses of your Pills have completely restored me to health. I have given them to my children for worms, with the best effects. They were pramptly cared. I recommended them to a riend for costiveness, which had troubled him for months; he told me in a few days they had curred him. You make toe best medicine in the world, and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Coart, whose brilliant abilities have made him so well known, not only in this but the neighboring States.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefitted by your medicines. My wife wascured two years since, of a severe and dangerous cough, by your Cherry Poetoral, and since then has eighyed perfect health. My children have several times been cured from attacks of the influenza and croup by it. It is an invaluable remedy for these complaints. Your Catarities Pille have cared me from a dyspepsia and costiveness, which has grown upon me for some years—indeed this cure is much more important, from the fact that I had failed to get relief from the best physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not unmindful of it. Yours, greenecticilly,

our family, and you may well suppose we are not unmine ful of it. Yours, prespectfully, LEAVITT THAXTER." SENATE CHAMBER, OHIO, April 5th, 1854

DE. J. C. Aver — Honored Sir: I have made a thorough
trial of the Cathartic Pills, left me by your agent, at d have
been cared by them of the dreadful Racamatism under which
he found me suffering. The first does relieved me, and a
few subsequent doses have entirely removed the disease.
I feel in better health now than for some years before,
which I attribute suitably to the effect of your farmers. which I attribute entirely to the effects of your CATHARTH PILLS. Yours, with great respect.
